

Digital Media Skills Certificate Course

A special offer when you register with a friend or colleague.

Register for the Digital Media Skills Certificate Course with a friend or colleague and you'll each receive a free Apple iPad Mini 2, 16GB (WiFi only/no cellular) from Berkeley Advanced Media Institute.

To be eligible to receive an iPad, each registrant must comply with the following rules:

1. Prior to registration, each registrant must contact Diane Villadsen at dvilladsen@berkeley.edu and provide the name and email of the colleague or friend who will jointly register.
2. Registrants must be paid in full and attend the first day of class.
3. Registrants will each receive their iPad the second week of the course.
4. Style, color and specs are at the sole discretion of Berkeley Advanced Media Institute.
5. This offer is non-transferable.
6. This offer is only valid for the Digital Media Skills Certificate Course Spring 2016.

iPad mini 2 at a glance.

7.9-inch Retina display

Photos and videos look incredibly detailed and text is razor sharp on the stunning Retina display, which features over 3.1 million pixels — a million more than an HDTV.

Thin and light design

iPad mini is incredibly powerful and capable, with advanced features like iSight and FaceTime HD cameras. Yet you can still hold it in one hand.

A7 chip

The powerful and power-efficient A7 chip with 64-bit architecture makes everything remarkably responsive — while still delivering up to 10 hours of battery life.²

Ultrafast wireless

Get fast Wi-Fi performance using 802.11n with MIMO.³ And the Wi-Fi + Cellular model supports more LTE bands for fast connections the world over.¹

Powerful apps included

iPad comes with great apps for sending email, browsing the web, and making video calls. It also includes apps that let you do amazing things with your photos, movies, music, documents, presentations, and spreadsheets.

Over 500,000 apps on the App Store

The App Store has incredible apps designed specifically for iPad. These aren't just scaled-up phone apps. They take full advantage of iPad technologies like the gyroscope, accelerometer, and every pixel in the Retina display. So there's almost no limit to what iPad — or you — can do.⁴
